Lowell, Massachusetts

Please Read Before Ordering

ORDER EARLY. This suggestion is made to avoid disappointment in case that later in the season a variety may be sold out. We reserve the right to accept or refuse an order or any part thereof, depending on quantity of stock and whether at shipping time it is in condition to be sent.

All our varieties are true to name but, if in shipping an error is made, we will be glad to rectify mistakes, either by supplying true stock or cash refund, which ever in our judgment seems best.

TERMS. Money with order. Make checks or Money Orders payable to the

Fairmount Iris Gardens

We pay postage on all orders that amount to \$2.00, or over. We also allow a discount of 10% on orders of \$50.00 or more, except new varieties that are listed at net. We ship after blooming season until late Oct.; Beardless irises may be shipped in spring if so desired, all other stock listed will be shipped at proper time. We do not guarantee growth of plants in your garden; that rests with your ability. We do however guarantee good healthy stock and that it should reach you in good condition; any time a customer upon opening a package finds defective plants, he may at once ship them to us at our expense and his money be refunded. Our success depends on your satisfaction and we shall be glad to correct any error.

NEW INTRODUCTIONS and VARIETIES which are still RARE and STOCK LIMITED are in **BOLD CAP** letters and underlined.

NEWER IRISES of exceptional merit are in **BOLD CAPS** and not underlined.

I trust that these explanations will enable you to follow the catalogue with ease and understanding.

Join the American Iris Society

Being Regional Vice-President of New England and a charter member of the American Iris Society I feel that too much stress cannot be given to the value and influence of this society.

Four special bulletins are issued each year, which are filled with valuable information. These are sent to each member and most of the back bulletins may be had from the society at a nominal charge.

For every new membership fee which is enclosed with order for irises amounting to \$3.00 or more, I will send an additional value to the amount of \$1.00, my selection.

To those that are already members of the society I will give a 5% discount on orders of \$5.00 or over, providing stock is not too limited, which will rarely be the case.

Checks for membership to be made payable to,

THE AMERICAN IRIS SOCIETY

1932

.. Foreword ..

If we would keep the spirit of youth it is essential that we have an absorbing interest in life and I know of nothing more healthful or more entertaining than the culture of flowers and the perfecting of a garden. I have become so absorbed in this my favorite pastime that the year has sped as if on wings and it is hard to realize that it is again time to write the foreword and send out my catalogue for the year 1932.

This issue of the catalogue is in the same arrangement as that of last year. The new **IRISES**, **HEMEROCALLIS** and **POPPIES** that are listed have been carefully selected from those we consider the best of American and foreign origin.

I am again fortunate in having the exclusive introduction of the irises registered by Mrs. Stahlman and Mr. Washington of Nashville, Tennessee. They have always felt that an iris to be introduced should surpass any similar variety; this year we are offering only one bearded iris, **JEB STUART**, a gorgeous dark red-bronze, entirely different, but equal in beauty and form to the famous **MARY GEDDES**.

Other new Bearded irises of especial note are, **AL-LU-WEE**, **AMBER WAVE**, **BLACKAMOR**, **CARFAX**, **CLARA NOYES**, **COLUMBINE**, **CHROMYLLA**, **CYDALISE**, **CLAUDE AUREAU**, **DEPUTE' NOMBLAT**, **DOG ROSE**, **EREBIAN**, **EOTHEN**, **FULGORE**, **HASSAN**, **MADAME SEROUGE**, **NURMAHAL**, **NOWETA**, **ORIENT PEARL**, **PICADOR**, **PROPHETE**, **RED ROBE**, **RED DOMINION**, **RHADI**, **SENLAC**, **SACHEM**, **TALISMAN**, **THURATUS**, **VENUS DE MILO**, **ZAHROON** and **ZUNI**.

Recently a new field in iris breeding has been opened, namely the crossing of our **AMERICAN SPECIES** from the Southern States with other Beardless varieties. Living in the south, Mrs. Stahlman and Mr. Washington have access to these kinds and for several years have been doing extensive breeding along this particular line. From their countless seedlings, they have carefully selected for 1932 introduction some very lovely and unusual hybrids which you will find listed under **AMERICAN SPECIES** and **HYBRIDS**. Also two beautiful Spuria seedlings, **INDIAN SUMMER** and **NATCHEZ**.

Especial attention is called to the new and rare **SOUTHERN SPECIES** which are catalogued for the first time. They are hardy in the north and will prove interesting and lovely additions to the garden as well as being of great value to those engaged in hybridizing.

There has been great need of more delicacy and beauty of color in the Japanese irises; with this in view I have crossed them and from the many seedlings I have bloomed, have this year made a critical selection for introduction of those I deem entirely distinctive. They are soft pastel shades that will blend with other flowers in making perfect garden pictures. I am also introducing **AHALYA**, a charming pink Siberian.

Most flower lovers have read of Dr. Neeley and his magnificent poppy **LULU NEELEY**, which was introduced several years ago. I have the pleasure of listing for the first time in my catalogue, his 1931 introductions which sur-

pass all previous poppies he has produced. They are **CAVALIER**, a glowing cerise, **ECHO**, an exquisite silvery pink, **ENCHANTRESS**, a superb poppy of pale lilac-rose, **JUNE DELIGHT**, a bright pink of silvery sheen and **PURITY**, a pure soft pink, without spot or blemish.

Particular attention is called to the following poppies; **ETHEL SWETE**, **MRS. STOBART**, **BARR'S WHITE**, **MAHONY AMELIORE**, **PERRY'S BLUSH**, **WUNDERKIND**, **THORA PERRY**, **WATTEAU** and **LADY MOORE**.

I have watched with pleasure the growing popularity of the newer hybrid **HEMEROCALLIS** and am convinced that they have a great future. In America, Dr. Stout of New York Botanic Garden and Mr. Betscher of Ohio have bred many of our new hybrids.

Mr. Mead of Indiana has also crossed many of the foreign varieties and in 1931, his beautiful seedling **HYPERION** was given an Award of Merit by the Royal Horticultural Society of England.

English hybridizers have introduced many new and lovely **Hemerocallis**, most of these I have imported; some are still under government control and will not be released until 1933 or later. Of the English hybrids already available especial attention is called to **GEORGE YELD**, **SHIRLEY**, **SIR MICHAEL FOSTER**, **RADIANT** and **WINSOME**; the latter was given in 1931 an Award of Merit by the Royal Horticultural Society of England.

On the last pages you will find listed many excellent irises which on account of space I have omitted from the descriptive portion of the catalogue. They are beautiful and well worth while varieties but, quantity enables me to reduce the price so that they may be within the reach of all. Descriptions of them may be found in my catalogue of last year.

I wish to thank my customers for their generous patronage and to express my appreciation of their letters which tell me of their satisfaction in the quality of my stock and the excellent condition on arrival.

A garden filled with flowers is a joy of joys but, half the pleasure is in sharing your happiness and delight, so to every lover of flowers a most cordial invitation is extended to visit the garden, especially in the summer months for it is at this time that the flowers are at their height of bloom, but no matter when you come you will always find the latch string out.

ELIZABETH NOBLE NESMITH

Bearded Irises

Newer and Rarer Varieties

- ABORA** (Hill 1928). This beautiful iris is a red-violet self, flowers well shaped; falls horizontal. Well branched stalk of good height; 36 in. H. M., A. I. S. 1930 \$12.50
- ALCHEMY** (Warham 1924). One of the finest deep yellow irises. The flowers are heavy of texture. A truly splendid iris. \$35.00
- ALCINA** (Con. 1927 Nesmith 1931). Sister to Aubade. 1931 introduction. S. pale yellow; F. a beautiful blending of blue and gray; large well rounded flowers; excellent; 26 in. \$8.00
- ALLURE** (Murrell 1927). A beautiful opalescent pink and soft yellow blend; a new break in color; especially lovely; high recommendation from England. 38 in. S.M.,R.H.S.1927. \$4.25
- AL-LU-WEE** (H. P. Sass 1932). An extremely large and tall variegata. This iris was especially noted last season, being outstanding in beauty; size of flower and branching of stem; 40 in. \$15.00
- AMBERA** (H.P.Sass 1931). A large flowered amber yellow intermediate of fine form, texture and purity of color; strongly recommended. 30 in. H.M.,A.I.S. 1931 \$5.00
- AMBER WAVE** (Mur. 1930). A remarkable suffusion of amber-yellow and pale-olive bronze; falls are touched with a flush of violet-blue; flower is perfectly proportioned; broad standards and falls; well branched; 38 in; C.M.,R.H.S. 1930. \$25.00
- ANDANTE** (Wmsn. 1928). S. arched and cupped; raisin-purple with maroon shadings; F. wedge shaped; velvety raisin purple; new and especially good; 38 in. \$5.00
- ANNE MARIE CAYEUX** (Cay. 1928). An exquisite iris of unusual color and strong texture. S. are mauve shot with fawn; F. soft rosy heliotrope, flushed with metallic blue; 38 in. C. M., S. N. H. F. 1930. \$15.00
- AUBADE** (Connell 1927, Nesmith 1931). The Hindu Dawn Song. A glistening flower of great beauty and form. The standards and style branches are of a beautiful soft yellow tone; the falls are a blending of rose and pale gray; distinct yellow beard. The whole flower is suffused with rosy apricot; large flowers on well branched stems. \$20.00
- AURIFERO** (M.M. 1927). S. light lavender; F. lavender, flushed rose; throat flushed golden; deep yellow beard; excellent; 40 in. \$2.50
- AHWAHNEE** (Essig 1931). A very large flower of heavy substance and unusual color. The broad falls are velvety dahlia carmine, edged with white lines and spots. Standards are an iridescent blending of deep vinaceous lavender and wood brown; especially beautiful in artificial light; 36 in. \$5.00
- BALDWIN** (Sass 1927) Manganese violet self of large size; a great favorite; 42 in. \$2.00
- BEAU SABEREUR** (Wmsn 1928). This is a remarkable new type variegata, plainly showing traces of Dominion blood; S. aniline yellow with midveins tinged purple; F. ox-blood red; cadmium yellow beard; a strikingly beautiful flower. 36 in. \$3.00
- BEDOUIN** (Nesmith 1927). An exceedingly clear glowing red iris of unusual beauty and form. \$5.00

BLACKAMOR (J. Sass 1932). A magnificent black-purple iris of large size and splendid substance; large flowers beautifully placed on well branched stems. This iris is one of the new so-called blacks; 40 in. H. M., A. I. S. 1931.	\$25.00
BLACK WINGS (Kirk 1931). Flowers are of good size, form and substance; flaring falls that seem black owing to the black veins on a background of Fluorite velvet. The plant is strong and sturdy; in every way desirable. H. M., A. I. S. 1931.	\$25.00
BLUE BANNER (Kir. 1929). A new, beautiful iris, the arrangement of color being like B. Y. Morrison but of light intense blue instead of raisin purple; the general effect is bright electric blue; no other flower equals it in color. 38 in.	\$6.00
BLUE AND GOLD (1931). A most unusual and attractive bright rich blue self; the intense golden beard gives a sharp contrast which is very pleasing; the center of the flower is flushed with amber-yellow; sturdy stems.	\$5.00
BLUE HILL (Sass 1930). Delightful new iris; color of Sensation, but with larger flowers and perfectly branched stems. 37 in.	\$5.00
BLUE VELVET (Loomis 1929). Too much cannot be said in praise of this wonderful new iris. A self color; clear, rich, very dark blue; the whole flower has a deep velvety look that is unequalled; large flower on thick strong stems; well branched; 46 in.	\$15.00
CADENZA (Wmsn. 1930). A beautiful blend of pale lavender touched with creamy tones.	\$2.25
CALIFORNIA BLUE (Essig 1929). A wonderful blue iris from our western coast; cadmium yellow beard; flowers of immense size on tall stiff well branched stems.	\$2.00
CAMELIARD (Sturt. 1927). This is a distinct novelty, a variegata blend. The huge well proportioned flowers are amber yellow overlaid with wine purple to within half an inch of the orange beard.	\$3.00
CANELANDS (Nesmith 1931). A splendid iris of variegata coloring. Standards a combination of straw-yellow and buff gold; falls deep velvety maroon. There are many flowers of large size on unusually tall and well branched sturdy stems. A handsome iris of great richness; 46 in.	\$12.00
CARFAX (1929). This gorgeous iris is considered the greatest achievement of Mr. Bliss since he introduced Dominion. The flowers are rich red-purple in color, of extreme velvety substance and of huge size. The bloom stalks are splendidly branched and bear many flowers. Too much cannot be said in praise of this new iris; 46 in. C. M. and Silver Gilt Medal R. H. S. 1929.	\$30.00
CASSANDRE (Cay. 1928). Extremely large flowers of beautiful shape and substance. S. smoky violet-rose; F. deep rich garnet-purple with lighter edge, giving the effect of Persian colors; exquisitely blended; strong well branched stems; one of the very best irises. C. M., S. N. H. F. 1928.	\$5.00
CAVATINA (Wmsn. 1929). A smooth satiny finished flower; similar to Grisette, but more of a violet self; new; 40 in.	\$2.00
CHALLENGER (Sass 1930). S. dark purple, overlapping; F. blackish violet; flaring; beard tipped orange; one of the largest intermediates; long season of bloom; 29 in.	\$2.50
CHARIS (Nesmith 1928). Coppery red bi-color, resembling Grace Sturtevant but taller and better branched stalks; 40 in.	\$3.00
Chartier (Hall 1925). A smooth clear white; orange beard; long season of bloom; 39 in. Silver Medal, A.I.S. 1927.	\$2.50

CHESTNUT (Sass 1930). S. cinnamon drab; ruffled; F. cream, faintly dotted petunia violet; a blended plicata; 30 in.	\$2.50
CHROMYLLA (Loomis 1931). This lovely iris is a uniform shade of lemon chrome; not quite so deep as Pluie d' Or but of great smoothness of finish; flowers are well carried on strong stems and do not fade; 40 in. H. M., A. I. S. 1931.	\$25.00
CINNABAR (Wmsn. 1928). Wonderful new iris; general effect rich dark red self; heavy red velvety falls. A.I.S. Silver Medal given in 1930 as the most outstanding iris of 1928; 42 in.	\$2.00
CLARA NOYES (H. P. Sass 1931). The most strikingly colored of all new irises; one that attracts attention wherever shown; a blend of red, orange and yellow. It has the coloring of a Talisman rose; 38 in. H. M., A. I. S. 1931.	\$10.00
CLAUDE AUREAU (Cay. 1928). This iris is one of the finest variegatas to date. S. are golden greenish yellow; F. long and wide; intense Bordeaux-red with a wide margin of bronze touched with gold; 38 in. C. M., S. N. H. F. 1928.	\$30.00
COCKATOO (Mor. 1928). A plicata of soft empire yellow; a ruffled flower of fine texture.	\$4.00
COOLEY'S SURPRISE (Cooley 1928). Medium blue flower of great size and height; the entire flower suffused with pale heliotrope; intense burnt orange beard; well branched; 42 in.	\$5.00
COLOSSUS (Sass 1930). The largest American iris. A huge purple self; flower measuring about ten inches; tall and well branched.	\$15.00
COLUMBINE (Mur. 1930). A lovely white of clear crystal beauty; the flowers are well poised on slender branching stems; free flowering; lovely; 38 in. A. M., R. H. S. 1930.	\$15.00
CORONATION (Moore 1927). I consider this one of the best yellow irises that has been introduced; is a deep rich golden yellow of fine form and texture; too much cannot be said in praise of it; 43 in.	\$2.00
CRUCIBLE (Berry 1929). Grayish lavender with conspicuous golden throat which greatly adds to the beauty of the flower; large, free flowering and distinct; 42 in.	\$4.00
CYDALISE (Cay. 1930). An extremely interesting and beautiful flower; a yellow plicata. It is a hybridizers triumph. 38 in. C.M.,S.N. H.F. 1930.	\$25.00
CYRUS (H.P. Sass 1931). Color is Empire-yellow with large flowers on well branched stems; excellent. 36 in.	\$5.00
DAUNTLESS (Con. 1929). The finest red iris that I have seen. It is a self in color but the falls seem darker than the standards, because of their rich deep velvety substance. The large flowers of splendid texture are beautifully poised on very well branched stem. Too much cannot be said for this iris; 40 in. Awarded the Dykes Medal in 1929 by the American Iris Society.	\$10.00
DAY DREAM (Sturt. 1925). A lovely soft pink bi-color blend of great beauty; 42 in.	\$7.50
DESERT GOLD (Kirk 1929). This is a yellow of large size, perfect form and unusual substance. The flower is pure yellow, luminous, pleasing and fragrant; beard chrome yellow. The stalk is strong and well branched; 32 in. Highest praise is given to this iris.H.M.,A.I.S. 1931.	\$20.00
DÉPUTÉ' NOMBLAT (Cay. 1929). This iris is considered the finest achievements of M. Cayeux, S. coppery-red with a flush of bronze and gold; F. horizontal; a rich shade of claret-crimson. The	

whole flower seems to be lightly dusted with gold. A remarkable iris; 50. in. Dykes Medal 1930. **\$30.00**

DOG ROSE (Insole 1929). The finest pink iris to date. A warm pink flower; large in size and beautiful in form; bloom stalks are well branched and exceedingly tall; deep golden beard. A wonderful iris. 50 in. C.M.,R.H.S. 1929. **\$30.00**

DON JUAN (Cay. 1928). This iris is of enormous size both in the flowers and foliage. S. light rosy lilac touched with bronze, which gives a pinkish glow; F. bright red, shaded lighter at edge; wide and flaring. Much enthusiasm has been displayed over this iris. Special prize, Iris Com. of France 1928. C.M.,S.N.H.F. 1928. **\$10.00**

DOROTHY DIETZ (Wmsn. 1929). S. light blue; soon after the flowers open these change to white; F. broad, wedge shaped, dropping; color, rich pansy violet. The best Amoena to date; unusual; 39 in. **\$3.50**

DOLLY MADISON (Wmsn. 1927). S. mauvette shading out to yellow; F. flaring; wedge shaped; lilac with maroon cast; bright orange beard; free flowering and vigorous; pastel blend. One of the most popular irises; 39 to 41 in. A.M.,A.I.S. 1926. **\$1.50**

DOUGLAS (J. Sass 1932). Light lavender-violet; purple shading to light lavender, violet on edge; pale yellow beard. Large flowers on well branched stems; 44 in. **\$10.00**

DOXA (Sass 1928). An unusual and beautiful intermediate iris. S. a creamy blend; F. flushed with mauve; the whole flower is overcast with pale olive green; greatly admired; 28 in. H. M., A. I. S. 1928. **\$3.00**

EDGEWOOD (Hall 1926). A soft pink and pale yellow bi-color; good substance and branching; very dainty and lovely. **\$3.00**

ELSINORE (Hall 1925). A distinctive iris of unusual coloring; primrose yellow, suffused and bordered delicate purple. Especially good as a cut flower; under artificial light it is like a gleaming taper; 40 in. **\$2.50**

EOTHEN (Wrhm. 1932). A beautiful Dominion seedling of soft ivory yellow, overlaid with buff which produces an effect of rich old ivory; large blooms, flaring falls. 40 in. **\$30.00**

EREBIAN (Loomis 1931). Another outstanding iris of 1931. Large flowers of gorgeous dark Bordeaux-red; falls are extremely velvety; beard is brilliant heavy gold; exquisite finish to flower and great smoothness of texture; stems tall and well branched; 40 in. **\$25.00**

EUPHONY (H.P.Sass 1929). Beautiful blend of chamois yellow overlaid with slight vinaceous tone; ruffled flowers on well branched stems; unusual and delightful; 38 in. **\$2.50**

EVOLUTION (Cay. 1929). This is a marvelous new iris of coppery bronze shades; frilled standards; rare and beautiful. Stock limited. C.M.,S.N.H.F. 1928. **\$16.50**

FASCINATION (Cay. 1927). A marvelous new iris from France; Clear pink with enormous flowers of fine substance and form on tall well branched stems. Some think this is better than Pink Satin; 48 in. **\$5.50**

FARANDOLE (Cay. 1928). These large flowers are of entirely different color from any other iris bloom. S. are French gray strongly suffused with pinkish lilac; F. reddish rose center with French gray edge; Plant is of vigorous habit; well branched; flowers an exquisite blending of color; 38 in. C.M.,S.N.H.F. 1928. **\$9.00**

FERNANDE (Cay. 1926). Flowers of large size on tall well branched stems; color is a blending of deep rich bronzy red-purple; excellent. **\$10.00**

FLUSH OF DAWN (Berry 1931). A lovely blend; tints of the morning sky; especially good in artificial light. **\$8.00**

FRAGONARD (Cay. 1926). Lovely soft pink in color and of great beauty in every way. 38 in. C.M.,S.N.H.F. 1926.	\$4.00
FRIVOLITE (Cay. 1929). A delightful shrimp pink. Tall and of good size; darker in tone than Marquisette.	\$15.00
FULGORE (Cay. 1930). An unusual blend of reddish garnet and coppery yellow. Flowers are large on well branched stems. 40 in. Stock limited. C.M.,S.N.H.F. 1930.	\$25.00
GIANT KING (H.P. Sass 1931). A giant flowered variegata of Iris King type but has a touch of red on the midribs which gives a different and more lovely tone. 36 in.	\$5.00
GAULOIS (Cay. 1926). Golden yellow standards suffused with rosy bronze; falls are of bordeaux-red; well liked.	\$2.50
GOBELIN RED (Danen 1929). This is a much talked of red in ox-blood tones, having just a tinge of blue throughout. 38 in.	\$18.00
GOLDEN HARVEST (J.Sass 1930). Olive yellow standards, with bluish sheen toward haft; falls yellow citron; distinct orange beard; fall blooming int.	\$5.00
GOLDILOCKS (Way. 1930) The whole flower is uniform soft yellow of unusual tone with a lustrous silky sheen and smooth texture; large flower; perfect form; well placed on nicely branched stems; 36 in.	\$20.00
GOLD STANDARD (Edl. 1927). A lovely soft creamy yellow flower with flaring falls; brilliant orange beard; 40 in.	\$3.50
GOLD STREAM (Edl. 1929). Pale creamy bi-color; conspicuous beard tipped with crome orange which gives the flower a glowing appearance; tall and floriferous; 41 in.	\$6.00
GRACE STURTEVANT (Bliss 1926). A splendid Dominion seedling; The flowers are a dark red-brown and violet-carmen; deep orange beard; the falls are extremely velvety of a blackish hue; 38 in.	\$7.00
HASSAN (Mur. 1930). A new iris of glistening sulphur yellow; the falls are suffused with a smoky violet; a Dominion seedling of fine form; 40 in. C. M., R. H. S. 1930.	\$16.50
HELEN CAMPBELL (Nesmith 1930). A late flowering iris of exceedingly rich effect; standards deep red purple; falls are of same color and extreme velvety substance, almost a true self. The stalk is well branched; many large beautifully poised flowers; 40 to 42 in.	\$8.00
HELIOS (Cay. 1929). An enormous yellow of lighter shade than Pluie d'Or; stems well branched and tall; flowers are of lemon yellow, with very faint reticulations on falls when first open, quickly becoming almost invisible. An exceptionally fine iris; 44 in.	\$15.00
HENRI RIVIERE (Millet 1927). Exceedingly large flowers well poised on many branched stems; S. pure lemon yellow, deepening to canary yellow at base and edged with same shade; F. are a blending of canary yellow and lilac-mauve; a beautiful color combination that is hard to describe; 42 in.	\$6.50
HERMITAGE (Kirk 1931). Red blend of rosy tan and crimson. Difficult of description, but lovely.	\$20.00
HERNANI (Cay. 1929). M. Cayeux speaks of this iris as the nearest to a real red. S. coppery rose with slight tinge of heliotrope; falls are very velvety and of deep garnet red; 38 in.	\$12.50
HOLLYWOOD (Essig 1929). A charming bright pink, yellow and old gold blend. Standards are flushed with lavender; F. are daphne pink overlaid with hortense violet; brilliant orange beard which intensifies the beauty of the whole flower; 38 in.	\$5.00

- IMPRESSARIO** (Mor. 1927). This iris is a pink toned, light blended bicolor; good growth; widely branched stems with many flowers. 38 in. **\$2.50**
- INDEPENDENCE** (Nesmith 1931). A Dominion seedling of a real deep velvety blue; standards are beautifully arched; falls large and flaring; stalks are of great height and especially well branched. **\$12.00**
- ION** (Mead 1929). A glorified Swazi but a much larger darker flower; cream colored beard; splendid carriage of flowers on tall well branched stems; withstands winds and rains; 40 in. **\$8.00**
- INDIAN CHIEF** (Ayres 1927). One of the best red irises; of splendid form and texture; vigorous; a great addition to any collection; 40 in. **\$6.50**
- IRMA POLLOCK** (H.P. Sass 1931). A richly colored flower of velvety carmine; the falls have a lighter edge; large flowers of fine shape and substance. 38 in. **\$10.00**
- JEB STUART** (Washington 1932, Nesmith 1932). This iris equals **Mary Geddes** in beauty and charm. The color of the flower is a deep rich brownish red with some influence of copper in the tone. A deep orange beard extends well out on the falls adding greatly to the intense coloring. S. are domed and do not open; F. are extremely velvety causing them to seem much darker than the standards although the flower is almost a self. Strong, heavy well branched stems; good seed parent. A splendid iris and one that I am proud to introduce; 40 in. Net. **\$25.00**
- JOYCETTE** (J. Sass 1931). It is a beautiful deep red, deeper than Red Wing; very large well formed flowers on extremely tall and widely branched stem. Excellent. 46 in. **\$20.00**
- KLAMATH** (Klein.1929). S. hissoop violet; F. prune purple; beard extremely yellow; haft and claw beautifully marked with brown; 42 in. **\$20.00**
- KATHERINE McFARLAND** (Spitzer 1928). A perfect blue-black purple self; exceptional substance and form; 40 in. A.M.,A.I.S. 1926. **\$4.00**
- KING JUBA** (Sass 1930). Large flowered variegata; flowers beautifully placed on extremely well branched stems; 40 in. **\$15.00**
- KING TUT** (Sass 1926). A brilliant iris of an entirely new shade. S. brown with strong reddish lights; F. velvety glowing red; garden effect is a rich red; much admired; 35 in. **\$2.50**
- KING MIDAS** (Mead 1927). This is a splendid iris of great beauty. The standards are golden buff, suffused garnet-brown; the falls are velvety iridescent garnet-brown edged golden buff; heavy beard of deepest orange; the center of the flower is illuminated with glowing yellow lights; splendid form and carriage. **\$5.00**
- LE CORREGE** (Vilm. 1927). Rated by the English Iris Society at 93. S. smoky bronze shot with lavender and suffused red; F. large broad, bright dark velvety red; well and widely branched; 46 in. C. M.,S.N.H.F. 1926. **\$4.00**
- LE PRINTEMPS** (Nesmith 1930). A real pink plicata of smooth texture; flowers well placed on strong slender stems, good branching; 38 in. **\$6.00**
- LODESTAR** (Hall 1925). An exceedingly attractive iris of fine form; S. lemon chrome; F. claret-brown with border of lemon chrome; large flowers of clear colorings; 38 in. A.M.,A.I.S. 1927. **\$2.00**

- LORETTO** (Nesmith 1930). A soft clear pink; flowers are large and of good substance, stalks are widely branched with many blooms. A beautiful and distinctive iris; 38 to 40 in. \$7.50
- LOS ANGELES** (M.M. 1927). Great white flowers of fine shape, form and substance; petals are faintly edged with blue; this and San Francisco are the largest plicatas; both give an effect of white; 48 in. \$3.50
- MADAM SEROUGE** (Cay. 1929). Large flowered and very dark in color; standards, violet; falls blackish purple; flaring; 42 in. \$20.00
- MAGENTA** (Cay. 1927). Named for the French battle of Magenta, not from any resemblance to magenta coloring. The flower is a wonderful bright deep pink; large and beautifully formed; greatly admired by all who have seen it. Luxuriant foliage; tall well branched stems. 40 in. C.M.,S.N.H.F. 1929. \$4.00
- MARQUISETTE** (Cay. 1926). Absolutely new color; pale shrimp pink with a salmon tinge; free flowering; one of the best; 40 in. C.M.,S.N.H.F. 1924. \$2.00
- MARY GEDDES** (Stahl.-Wash. 1930-Nesmith 1931). An iris of beautiful and unusual coloring. Standards light ochraceous salmon; arched; Falls are of the same shade, overlaid with Pompeian red; might be called a self bi-color. Flowers of great substance; 8 to 10 blooms on one stalk; low and widely branched stems of great height. The following is quoted from Mrs. Hires article in A.I.S. of July 1930, entitled "Seen in Passing",—"but one among the tall bearded was quite outstanding. Indeed, it is one of the most stunning in color I have seen this year—or any year. It was so lovely we returned to it several times, going the following day to see it in its home garden where it stood out among hundreds of seedlings. It is tall, the bloom well placed on a nice stalk. In color it strikes a new note, being a self of light Ochraceous Salmon, which should intrigue one planning for color in the garden". The flowers are especially beautiful and glowing in late afternoon; 40 in; H.M.,A.I.S. 1930. Net. \$25.00
- MARESCHAL NEY** (Wmsn. 1930). Rich bi-colored red with a chestnut brown tone; central area orange lighted; many large flowers; a distinctive iris; 35 in. \$3.00
- MELCHOIR** (Wal. 1927). A magnificent iris which in some ways resembles Mrs. Valerie West, but has more of a dusky, bronze tone; F. rich velvety crimson-purple; bright golden beard; growth vigorous with well placed flowers on strong well branched stems. \$8.00
- MELDORIC** (Ayres 1930). Dr. Ayres regards this as his most outstanding production. It combines the richness of Dominion with the size and majesty of Mesopotamica without the tenderness of the latter. The flowers are blue-black, very large in size; broad flaring falls; standards of very dark hue; 40 in. H. M., A. I. S. 1931. \$20.00
- MESSALINE** (Mil. 1927). S. pale gold flushed violet-pink; F. Corinthian red with gold shading at throat; 39 in. \$3.00
- MIDWEST PRIDE** (H.P. Sass 1931). A beautiful rich violet flower. Has been called a giant Archeveque; about the coloring of R. W. Wallace but better in every way; 38 in. \$10.00
- MIDNIGHT SUN** (Nesmith 1931). This is a cross of Dominion and Esplendido and has inherited the best qualities of both parents. Flowers are of a deep velvety purple; well branched stalks with ten or more flowers on each; of large size and excellent form 42 to 45 in. \$6.00
- MIRASOL** (M.M. 1929). Splendid clear bright yellow; excellent in every way. \$6.00

<u>MODOC</u> (Essig 1929). A wonderful new iris of outstanding qualities; S. cotinga purple; F. darker than the most blackish purple with a warm velvety texture; beard yellow. The flowers are almost black in color.	\$13.50
MOONBEAM (Mur. 1927). Almost a self of bright glowing yellow. The beard is of the same rich tone. A magnificent iris.	\$4.00
MONTEREY (M.M. 1929). The flowers are a wonderful bronzed red-violet of good size on tall and well branched stems. A splendid iris; 40 in.	\$4.00
Mons. Brun (Den. 1921). A pale brownish bronze iris; slow of growth, but different; 39 in.	\$3.00
MOUNT ROYAL (Morg. 1929). S. deep bluish violet; F. very velvety rich red-pansy violet. Large fragrant flowers well placed on good stems; 38 in.	\$3.00
Mme. Cecile Bouscant (Mil. 1923). S. clear orchid pink. F. delicate petunia-violet flushed rose. The whole flower is an exquisite shade of orchid pink; charming; 40 in. C.M., S.N.H.F. 1925.	\$2.50
MRS. EDWARD HARDING (Per. 1925). A splendid pallida; S. violet purple; F. deep, dark velvety purple; bronze yellow beard; large well formed flowers; gives a wonderful color effect in the garden; 42 in.	\$2.50
MRS. ROBERT EMMET (Per. 1925). A fine celebrated white; flowers milk-white with brilliant yellow beard; good branching stems; many flowers blooming at one time; 38 in.	\$2.50
MRS. VALERIE WEST (Bliss 1925). Dominion seedling of the second or third generation. S. lavender shot with brown; F. deep crimson maroon. Flowers are very large and well placed on strong well branched stems; a masterpiece; 41 in.	\$7.50
<u>NEPENTHE</u> (Con. 1927, Nesmith 1931). This is an extremely beautiful blend, so lovely that it is difficult to describe. A soft sea mist coloring; Mother of Pearl blended with the soft blue of summer skies; touched with rose throughout the falls. The flowers have a glistening sheen.	\$10.00
<u>NO-WE-TA</u> (H.P. Sass. 1932). A beautiful pink iris with just a flush of yellow; lovely; 34 in.	\$20.00
<u>NURMAHAL</u> (Nic. 1931). A splendid iris of dark rich tones. S. are deep brown with just a touch of violet, large and domed; F. very deep black-brown; yellow beard; a perfect iris that at once attracts attention.	\$25.00
NUMA RUMESTAN (Cay. 1928). A deep rich red; the S. and F. are deeply frilled which adds greatly to the beauty of the flower; strong and well branched stems; 38 in.	\$6.00
NUSKU (Nesmith 1930). A lovely old rose and yellow blend; luminous flowers; tall and stately; well branched; withstands rains and winds. Extremely well liked.	\$4.00
ODDETTE OLIVETTE (Non 1922). This variety is not well known in this country and is one that is always well liked when seen; similar in coloring to Wild Rose and Rheingauferle; very lovely; 34 in.	\$2.50
OLWEN (Dykes 1929). This iris is a beautiful Moonlight type; the general tone is pearl with yellow and maroon in the falls. A truly lovely iris; 38 in.	\$6.00
OMAHA (Sass 1926). Almost a red self; large blooms on sturdy stems; the rich golden style branches and bright orange beard lend a luminous golden rose tone to the flower; handsome; 34 in.	\$2.00

OPALINE (Wmsn. 1930). One of the loveliest irises that I have ever seen. In the same class with Allure; a soft pinkish yellow blend. I cannot recommend it too highly; 38 in.	\$3.50
OREGON BEAUTY (Klein. 1930) S. aconite violet; F. bright velvety purple with strong medial line and brighter edge; well branched stiff stems; extra large flowers; 40 in.	\$10.00
OREGON GIANT (Klein. 1930). S. reddish purple; F. wide and flaring; blackish purple; heavy gold beard; much talked of on the Pacific coast; 42 in.	\$10.00
ORIENT PEARL (Mur. 1930). A fascinating iris and much admired; a beautiful bit of iridescence of pearly pink and gold; lovely; 38 in. C. M., R. H. S. 1930.	\$20.00
ORTRUD (Mor. 1928). A deep rich warm reddish blending of color; heavy midrib on the standards; large flower; early; 26 in.	\$2.00
OSPREY (Berry 1927). A most charming pale lavender; throat is illumined with gold; blooms over a long period. Too much cannot be said in praise of this iris; 40 in.	\$6.00
PACIFIC (Essig 1929). Color of this lovely flower is similar to that of Santa Barbara but it is larger and finer in every way. 38 in.	\$4.00
PALE MOONLIGHT (Essig 1930). A very large and vigorous hybrid of pale campanula-blue; beard is bright orange; flowers are large and of excellent form; well carried on tall, many branched stems; 47 in.	\$5.00
PENN TREATY (Danen. 1929). Deep velvety blackish violet flowers of splendid texture; very vigorous in growth; 38 in.	\$8.00
PEERLESS (Dykes 1924). A marvelous flower of enormous size and brilliant color; S. erect; light reddish violet; F. long and straight; deep glowing velvety red; beard intense gold; the whole effect is a glowing mahogany-red; highly recommended; 40 in.	\$5.00
PERSIA (Ayres 1929). A splendid iris of absolutely unique color; S. smoky blue; F. rich blue-purple, shading to a much lighter edge; gold markings at throat; well named on account or its resemblance to a Persian rug; much admired in England; 48 in. H.M., A.I.S. 1928	\$12.50
PHRYNE (Cay. 1925). Extremely large flowers; S. lavender shading to rose; F. reddish lilac with silver gray edge. Flowers as large as the gigantic Nene; very distinct and beautiful; 42 in.	\$4.50
PETRUCHIO (Mor. 1924). S. lobelia violet; F. dahlia carmen; golden hafts with brown markings; brilliant flower; strongly recommended; 36 in.	\$3.50
PHEBUS (Cay. 1930). A much talked of iris of lemon yellow; well shaped flowers of good size on tall branched stems; deep orange beard adding depth to the flower; excellent; 40 in.	\$25.00
PICADOR (Mor. 1930). This unusual and lovely iris has been much admired; standards are yellow with greenish touch at throat; falls deep dahlia-carmen; low and widely branched; very strong in growth; a brilliant iris. 40 in.	\$20.00
PINK SATIN (Sass 1930). This iris was one of the most discussed in 1930. The color is a true pink and the texture of the flower is very thick, withstanding wind, rain and heat. The whole flower has a glistening sheen that is only found in lustrous satin. H.M., A.I.S. 1931.	\$20.00
PONGEE (Bret. 1931). A light buff colored iris; the flower has silvery iridescence; golden beard; 40 in.	\$8.00

PLUIE d'OR (Cay. 1928). The finest most intense yellow that I have ever seen; bright orange beard; stout well branched stems; a glorious iris, 40 in. Dykes Medal, 1928.	\$9.00
PRAIRIE KING (Nesmith 1930). A Dominion seedling of intense deep blue purple. Flowers are of uniform color; standards domed; falls flaring and of extreme velvety texture; splendid substance. The stems are very sturdy with many branches. The whole flower has great depth of tone and color; 44 in.	\$12.00
PROPHETE (Cay. 1930). This is a late flowering variety of rosy lavender and bronzy amaranth red; falls have a flush of deep violet; a handsome flower; stock limited; 38 in.	\$30.00
PURISSIMA (M.M. 1927). A pure white of marvelous size, form and height. This and Shasta were the two finest whites up to this year when Selene and Wamblika were introduced; Thoroughly hardy in my garden. 46 in.	\$3.50
QUIVERA (J. Sass 1932). S. buff-pink; F. orange vinaceous striped deep pink; yellow beard. The general effect of the flower is buff and pink with a yellow sheen; tall and well branched. 38 in. H. M., A. I. S. 1931.	\$5.00
RASAKURA (Wmsn. 1930). A bright reddish bi-color; the standards and falls are really of the same shade but the heavy velvet of the falls makes the contrast. Might be described as a rosy Dominion; strongly recommended. 34 in.	\$5.00
RAMESES (Sass 1929). S. light russet, vinaceous, with yellow glow through center; F. tourmaline pink, heavy apricot beard; well branched stem; one of the finest new blends; 37 in.	\$8.00
REALM (Baker 1920). Intense blue self; conspicuous orange beard; large flowers of excellent substance; well recommended; 40 in.	\$1.50
RED DOMINION (Ayres 1931). This gorgeous red self was an outstanding introduction of 1931. Several years ago I saw this iris in the garden of Dr. Ayres and was greatly impressed by the clear deep red tone; in fact if my memory serves me correctly, Dr. Ayres and I, (assisted by Ridgeway) made the first description. The flowers are large with standards of deep, deep red and broad horizontal falls of dark velvety red. H. M., A. I. S. 1931.	\$25.00
RED ROBE (Nic. 1930). A magnificent red-violet iris of perfect shape and habit; intense yellow beard; whole flower seems to glow like a huge ruby; 40 in.	\$25.00
RED WING (Sass 1926). S. light brown; vinaceous; F. dahlia carmen; a large flower of unusual and intense color; excellent; 38 in.	\$3.00
REFULGENCE (Way. 1930). S. are light violet-blue with bronzy shadings on claw and lower edge of petals; F. are deep velvety violet-purple; beautifully veined white throat; beard is bronzy yellow; extremely large flower with open cup shaped standards; unusual and beautiful.	\$8.00
RHADI (Mrs. W. R. Dykes 1928). A beautiful Moonlight type of iris. Exceedingly lovely and unusual in coloring and form; S. cream white with blue tinge; f. blending of blue and bronze; very delicate in tone; heavy old gold beard; 38 in. Silver Gilt Medal, R. H. S. for best iris of 1928.	\$10.00
ROMANCE (Mur. 1928). A marvelous blend of lustrous rose flushed with bronze; S. fluted on edge; F. flaring; a deeper blending than Al-lure; beautiful. A. M., R. H. S. 1930.	\$5.00

ROSE DOMINION (Con. 1930, Nesmith 1931). A beautiful old rose colored self of Dominion parentage; strong well branched stems; Standards arched; Falls flaring and of deep velvet; beard distinctly golden yellow. Large flowers; a splendid and vigorous iris;	\$10.00
ROSE MARIE (Cay. 1928). A beautiful iris that really beggars description; almost a self of rich reddish purple; horizontal falls; the flower is beautifully frilled; strongly recommended; 38 in.	\$5.00
ROSE MITCHELL (Essig. 1929). A charming rose colored self; bright yellow beard; a great favorite in California; hardy. 40 in.	\$3.00
ROSE OF CUBA (J. Sass 1932). A bright color in a new rose toned iris with a dark splash of color at tip of beard; good grower; it makes a brilliant clump in the garden; 34 in.	\$5.00
ROSULTRA (Essig. 1929). The effect of this iris is a bright rich pink; good size, substance and branching; 40 in.	\$2.00
SACHEM (Loomis 1931). This iris is spoken of as a glorified King Tut; more intense in color, being a rich red-brown with deep velvety falls; large flowers well placed on strong stems. A rare and outstanding iris.	\$25.00
SACRAMENTO (M.M. 1929). This is a new giant plicata which is entirely different from Los Angeles and San Francisco. The standards are white, heavily edged red-purple; the falls are reticulated with the same color; prominent orange beard; a distinctly beautiful iris; 44 in. H. M., A. I. S. 1931.	\$12.50
SANDRINE (Cay. 1927). A large flowered variety of extremely good form and substance; S. fawn brown, touched with heliotrope; F. very large; amaranth red, softening to rosy mauve on the edge; outstanding; 42 in.	\$5.00
SAN FRANCISCO (M.M. 1927). This iris is considered to be the best of the giant flowered plicatas; falls and standards are distinctly edged blue-lavender. Flowers are well placed on widely branched stems. A magnificent iris. Dykes Medal 1927. 44 in.	\$3.50
SAN LUIS REY (M.M. 1928). This iris is the same color as Opera but flowers are nearly twice as large; strong sturdy stems; the flowers are of heavy substance, beautifully rounded form; golden beard; 40 in.	\$2.00
SELENE (Con. 1928, Nesmith 1931). This is a very large, glistening white, of especially good form and texture; well branched tall stems; perfect flowers; the yellow beard adds greatly to the beauty of this new wonderful iris. Too much cannot be said in praise of this absolutely hardy white; 42 in. Net.	\$15.00
SENSATION (Cay. 1925). A wonderful corn flower blue iris of perfect form and substance; enormous flowers on tall powerful stems; 48 in. C.M., S.N.H.F. 1926.	\$5.00
SENLAC (Bliss 1929). An outstanding iris of splendid color and form; the flowers of intense claret-red are larger than the best of the Dominion seedlings; well placed on strong, sturdy branching stems; a great favorite; 40 in.	\$32.50
SHASTA (M.M. 1927). Flowers are snow white with faint amber at center; an outstanding variety of excellent shape and substance. 40 in.	\$2.50
SIR MICHAEL (Yeld 1925). One of the finest irises ever introduced. S. clear lavender blue; F. a rich, very velvety red-purple; beard a brilliant red-gold; too much cannot be said in its praise. 48 in. A.M., R.H.S. 1929.	\$7.50
SOPHRONIA (Mor. 1923). Like Kashmir White but extremely hardy; flowers have the smoothness and texture of magnolia blossoms; 35 in.	\$3.50

<u>SPRING MORN</u> (Nesmith 1930). A lovely dainty blend of white and real soft pink. The flowers are large; the stem slender but, sturdy, with excellent branching. The flowers seem like dainty butterflies, lightly poised, as if for flight. The whole flower has a silvery sheen. 38 in.	\$6.00
<u>SUMMER CLOUD</u> (Kirkland 1928). The standards are at first pale blue, but change rapidly to a soft blue-white, just the color of summer cloud in the sky; the falls are blue as the sky itself; the flowers are well formed; plant growth is vigorous.	\$15.00
<u>SUNBEAM</u> (Mur. 1927). This is a self of clear canary yellow; smooth flowers of fine texture and form; well branched; lovely.	\$4.00
<u>SUNGOD</u> (H. P. Sass). A light yellow flower of excellent form; falls are slightly penciled with light brown.	\$3.00
<u>SUNLIGHT</u> (Sturt. 1929). The largest clear yellow that Miss Sturt-evant has introduced; a delicate luminous iris of outstanding form; floriferous; 37 in. H.M., A.I.S. 1928.	\$5.00
<u>TALISMAN</u> (Mur. 1930). One of the most beautiful of the newer irises and one that is hard to describe; a golden apricot, flushed with soft violet pink; lovely beyond words. 39 in.	\$25.00
<u>TOMMY TUCKER</u> (Nesmith 1930). A jaunty iris of clear yellow. Flowers are of good size and well carried on strong well branched stems; 37 in.	\$6.00
<u>THAIS</u> (Cay. 1926). A delightful large pink flower poised on strong stem; well branched; a more clear pink than Susan Bliss; desirable in every way; 42 in. C.M., S.N.H.F.	\$4.00
<u>THURATUS</u> (H. P. Sass 1931). This is a very large tall iris of outstanding beauty and form; a self of very deep blackish purple; excellent; 40 in.	\$10.00
<u>TUSCANY GOLD</u> (Wmsn. 1929). This is one of the most distinctive irises that Mr. Williamson has produced. The general effect of the flower is a rich coppery gold; cadmium yellow beard; very unusual and lovely; 36 in.	\$6.00
<u>UNCLE REMUS</u> (Essig 1928). The largest most magnificent early mulberry-purple iris that can be imagined; outstanding in the garden; 42 in. H.M., A.I.S. 1927.	\$2.00
<u>VAN CLEVE</u> (Van Name 1926). Almost a true self of rich purple; F. as deep and velvety as the famous Blue Velvet. The stalk is well branched; floriferous. Given an Award of Merit in 1930 by A.I.S.	\$2.00
<u>VERT GALANT</u> (Cay. 1929). An exceedingly large flower of very heavy substance, brilliant coloring and fine form. The standards are a blending of coppery fawn and soft lilac; falls intense garnet-red with bronze edge. A dominating iris; very tall and beautifully branched; 48 in. C. M., S. N. H. F. 1928. Dykes Medal 1929.	\$22.50
<u>VENUS de MILO</u> (Ayers 1931). A Dominion seedling of absolutely clear white with a yellow beard; flowers of heavy smooth texture on well branched tall stems; withstands wind and rain; strongly recommended; 42 in. H. M., A. I. S. 1931.	\$15.00
<u>VISHNU</u> (Sturt. 1924). Light pinkish cinnamon in color with a slight suffusion of pale glistening lavender; spicy scent; good form and height; 38 in.	\$10.00
<u>WACONDA</u> (H. P. Sass 1931). A brilliant iris of great beauty and form; a self of glowing dahlia-purple; exceedingly large flowers on beautifully branched stem; 38 in. H. M., A. I. S. 1931	\$8.00

- WAMBLISKA** (Sass 1930). One of the sensations of 1930. Huge white self; large flowers perfectly spaced on tall thick straight stems. Well branched. The flowers have a cool clear white tone in contrast to the creamy whites such as Micheline Charraire. H. M., A. I. S. 1931. \$20.00
- WILLIAM MOHR** (M.M. 1925). One of the most outstanding and beautiful hybrids that has been produced. It is a cross of Pogoniris and Oncocyclus; perfectly hardy in my garden (give it light covering of excelsior). Ground color is pale lilac, flushed and veined manganeuse violet; a huge flower; rigid stems. \$3.50
- W. R. DYKES** (Dykes 1926). This is a most renowned iris of recent years; brilliant yellow; the standards are tall, domed and beautifully frilled; the falls are of great thickness and crinkled, giving the effect of yellow crepe. Some years there are slight fleckings of violet, but to my notion this really adds to the charm; strongly recommended; 40 in. \$20.00
- YOSEMITE FALLS** (Essig 1931). Huge bicolor with exceedingly long falls; S. are light bluish-violet and are four and one-half inches high; the falls are hyacinth-violet and are in the same large proportions; cadmium-yellow beard; well branched stem; many flowers; excellent; 46 in. \$5.00
- YVES LASSAILLY** (Cay. 1928). A splendid new iris of especially pleasing color combination, white and delicate blue. S. white; F. white with a blending of soft sky blue toward the center; strong stems; many flowers in bloom at the same time; well branched; excellent and rare. C.M., S.N.H.F. 1928. Special prize by French Iris Commission. 1928. \$8.00
- ZAHAROO** (Mrs. W. R. Dykes 1927). One of the most beautiful irises, being a blend of amber, buff-yellow, and pale violet; the flower seems suffused with rose; strong, vigorous with good sized flowers; should be in every collection; 42 in. Silver Gilt Medal, English Iris Show, 1927. \$25.00
- ZUNI** (Ayers 1930). A superb red iris; another iris, the description of which caused Dr. Ayers and me to thoroughly thumb the pages of Ridgeway; it seemed impossible to describe with prosaic words this glorious red-brown flower, touched with copper; the standards seem sprinkled with the dust of gold. Large, well branched; outstanding; 40 in. \$10.00
- ## Dwarf Bearded Irises
- Black Midget.** Very black purple; scarce; 6 in. \$1.00
- BLUE MIDGET** (Nesmith 1931). A tiny dwarf of sky blue; new and lovely. \$1.50
- LADDIE BOY** (H. Sass 1931). A deep blue, bearing several flowers on 12 in. stems, blooming with the late pumila hybrids; a splendid addition to this list. \$2.25
- Marocain.** An exceedingly dark colored dwarf of red-purple. \$1.00
- NEOLA** (J. Sass 1932). S. livid violet; F. deep intense brown shaded sorghum brown; pale yellow beard; excellent. \$2.75
- PIXY** (H. Sass 1932). Blooms with the late bearded irises and is charming in the front of a border. It has much the coloring of King Karl. Much admired; branching 8 in. stem. \$2.50
- ROSE MIST** (H. Sass 1931). A beautiful little iris that is well described by its name; rare. \$2.50

SHADOWLAND (Nesmith 1931). A dwarf of extremely black-purple; much admired by visitors in the garden.	\$1.50
The Bride. Very fragrant white; delightful.	\$.50
TONY (H. Sass 1931). Black purple; orange beard.	\$2.50

Evansia or Crested Irises

CRISTATA, PEARL WHITE. This is a new cristata which has a cool white tone whereas the regular Cristata white has more of a creamy tone; Lovely and rare.	\$2.00
Cristata, blue. A charming dwarf for shady place in rock garden; sky blue with touch of gold; fragrant.	\$.25
Cristata. White. This is a lovely white form; very rare.	\$2.50
Gracilipes. A tiny lavender blue iris of dainty form; touched with orange at center; especially fine for shade in rock garden.	\$1.25
Lacustris. A tiny rock garden iris, similar to Cristata blue but smaller.	\$2.00
Milesii. A rare form from the Himalayas; claret-purple.	\$5.00
Tectorum. The famous Roof Iris of Japan; the blue-lavender flowers have a conspicuously fringed white crest; 8 in.	\$.35
Tectorum. White. Exquisite white form, the crests being marked with gold; very rare; a gem for the rock garden.	\$1.50

Apogon Irises

American Species and Hybrids

ALBASPIRITUS. An exceedingly rare Florida iris, white in color, sometimes called "the ghost iris". Net.	\$8.00
APPALACHEE. (Washington 1931). A Fulva and Hexagona hybrid of deep fuchsia coloring; falls are extremely velvety and of large size; small green line under lip. Stem is erect, well branched. Good foliage. 30 in. Net.	\$10.00
BRACTEATA. This little iris comes from Oregon; deep yellow veined with blue; 12 in.	\$1.50
CACIQUE (Berry 1925). A handsome fulva hybrid in prune-purple and black-purple; taller than Dorothea K. Williamson with a warmer coloring.	\$2.00
CAROLINA. An American species native to the southeastern U. S.; an interesting form of versicolor.	\$1.50
CAROLINA, NELSONI. A different shade of blue.	\$2.00
CHEKILLI. (Washington 1932). This iris is a lovely old rose overlaid with coppery veinings; shaded lighter at the edges. There is a yellow undertone in center of falls; Standards are lighter; flowers are large and beautifully carried on 4 ft. branching stems, well above the foliage. Net.	\$10.00
CHEROKEE (Washington 1932). The color effect of Indian-red and rosy copper is entirely new, plainly showing the vinicolor parentage. The ground of the flower is a lighter tone, veined with maroon, deepening under lip; Styles are darker. Well branched 3 ft. stems; Flowers a foot over foliage. Net.	\$10.00

CHICKASAW (Washington 1932). A Fulva, Vinicolor hybrid of unusual beauty, being a rich garnet self, the whole flower gives the effect of a deep velvety richness. Very free flowering, well branched, flowers are well above the broad foliage. 32 in. Net.	\$10.00
CHRYSOPHYLLA . White or soft yellow flowers, tinted and veined lavender; excellent for rock garden; rare; 8 in.	\$1.50
COWETA (Washington 1932). Background of the flower is almost white, heavily veined with deep rosy lavender, giving a rosy lavender coloring to the whole flower. 30 in. Net.	\$10.00
CREEK (Washington 1932). A deep rose laid over yellow; strong yellow line under lip; Center of the flower shades lighter and contains more yellow, giving a beautiful coppery tone. Flowers are above foliage. 36 in. Net.	\$10.00
Dorothea K. Williamson . (Fulva x Foliosa, Wmsn, 1918). Large velvety flowers of most vivid purple; generally considered one of the best older hybrids of this class.	\$.50
ELIZABETH WASHINGTON (Dorothea K. Williamson x Foliosa, Washington 1931). Bright rich velvety blue; small yellow spot under lip; a lighter, brighter blue than Foliosa; Falls 1 in. wide, 2 in. long; slightly cupped; flower 4 in. in diameter; blooms slightly below foliage; 6 or more flowers on 30 in. stem; Good; Net.	\$5.00
ESKA HOLT (Washington 1932). A hexagona hybrid of light cobalt blue with dark blue stripe down center of falls and an orange line under lip. Color is bright and lovely. Flowers 2 ft. Net.	\$10.00
EUDORA (Washington 1932). A light violet blue with dark line down center of the fall and a yellow stripe under throat. Lovely and different. 30 in. Net.	\$10.00
FLEXICAULIS . Native of the South-Central U.S. Bright blue flowers with throat markings of white and yellow.	\$3.00
Foliosa . South-eastern United States; large lavender-blue flowers on zig-zag stems; flowers are nestled down in the luxuriant foliage.	\$.50
Fulva . A species from the southern states, but hardy in the north; A very distinctive iris; flat flowers of bright coppery red; an excellent parent plant.	\$.75
Fulvala . (Fulva x Foliosa, Dykes, 1910). Quite similar in shape and form to Dorothea K. Williamson, but of a different tone of purple blended with copper.	\$.60
GEORGE WASHINGTON (Washington 1931). A Fulva hybrid of clear Indian red; velvety falls $\frac{3}{4}$ in. wide; 2 in. long, slightly curved; Flowers are large and carried above slender, graceful, light green foliage; 3 ft; Net.	\$10.00
GORMANI . A lovely soft yellow iris from the western coast, rare.	\$1.00
HOOKERI . Blue flowers; 18 in; nice for rock garden.	\$1.50
Hexagona . Native to south-eastern United States. Large lavender flowers with bluish cast; hardy; 36 in.	\$1.00
KIMBALLIAE . Native of Florida and coast region swamps; deep rich purple; stock limited; rare.	\$8.00
KATHRYN KNOX (Washington 1932). A Fulva Hexagona cross of deep velvety richness, the color being a dark dahlia red. Much brighter and richer in tone than Dorothy K. Williamson. Well branched; 30 in. Net.	\$10.00

- McGREGOR** (Washington 1931). A Fulva hybrid of light coppery red tones, containing more yellow than George Washington. Large flowers; Three or more carried on erect branched stalk; Flowers above foliage. Splendid variety; Net. **\$10.00**
- MANITOU** (Washington 1932). A gorgeous maroon colored self with brown markings under lip. An extremely large flower of this type, borne on very tall well branched stems. 4 ft. Net. **\$10.00**
- MARY DOUGLAS** (Washington 1931). A Hexagona, Fulva hybrid; a wonderful shade of clear pink of light tone; an unusual flower with long drooping, oblong falls. Flowers are just below the top of foliage. A charming graceful iris of an entirely new color; Net. **\$10.00**
- MARY LOVE** (Washington 1931). A Hexagona hybrid of wonderful height, color and form. Flowers are of a pinkish lavender orchid shade, large in size; 2 branched erect stems; 36 in; Net. **\$5.00**
- MARY MORRIS** (Washington 1931). This comes from a Hexagona crossing and is an extremely beautiful and unusual flower which contains a mixture of red, blue and yellow, giving the effect of a tawny blue. Flower about 4 in. in diameter on erect 2 branched stems which are nearly to the top of foliage; Net. **\$5.00**
- MARTHA WASHINGTON** (Washington 1931). In 1930 this iris was given Honorable Mention by the American Iris Society. The color of the flower is a rich velvety old rose, deepened by a slightly brownish tone, the whole effect being a glorious deep red. Foliage 36 to 40 in. high; slightly drooping. The flowers are large and well placed on tall erect stems; very floriferous. A seedling of Hexagona; Net. H. M., A. I. S. 1930 **\$15.00**
- MARY WASHINGTON** (Washington 1931). Dorothea K. WilliamsonXFoliosa. Flower is white and cream with yellow spot under lip, increasing to brown stripe; effect a creamy white; blooms slightly below foliage. A very unusual flower; Net. **\$10.00**
- MIKKATEE** (Washington 1932). This is the largest flower of the Hexagona hybrids being fully five inches in diameter and of a dark reddish purple color. Foliage slightly drooping which leaves the flowers well exposed. Excellent, 36 in, Net. **\$10.00**
- NELLIE KIRKMAN** (Washington 1931). This iris is of Hexagona blood. Flower, light bluish lavender; yellow green spot under lip; Falls fully 1 in. wide; flower 4 in. in diameter; slightly cupped; very straight tall stems, carrying 5 flowers; an extremely interesting variety; Net. **\$8.00**
- NEU BLUE** (Washington 1932). Blue lightly overlaid with lilac, deep purple line down center of the fall and a green line at the throat. Style branches have a pinkish tone; effect is a bright blue, a new color in iris. A very large flower on branched stems. Outstanding. 30 in. Net. **\$10.00**
- OBANCA** (Washington 1932). Deep cerulean blue, deeper line through falls; yellow blotch in throat. Large flower on well branched stems. A rich glowing color of blue. Net. **\$10.00**
- OKILISA** (Washington 1932). A lovely periwinkle blue self with small dark central line on falls; Yellow blotch at throat. Flower of large size; beautiful distinct coloring. Stem branched, 30 in. Net. **\$10.00**
- OSANA** (Washington 1932). Flower is a bluish taupe overlaid with brownish markings; Deep yellow stripe and glowing yellow throat. Color is a blend and difficult to describe. The effect is delicate and unusual. 26 in. Net. **\$10.00**

REBECCA WASHINGTON (Washington 1931). This is one of the best irises of this group; a pink iris with almost horizontal falls, the flowers being carried on stems well above the 2 ft. drooping foliage. This is the darkest of these pink hybrids, but is a good clear pink. Six flowers to a stalk; Net.	\$5.00
ROSANNA HOLT (Washington 1931). This Iris is of splendid height and coloring; Flower is a rich velvety pansy-purple with small green line under lip. The falls are slightly drooping; flowers 4 in. across are above the foliage; handsome and different; Net.	\$5.00
SARA CHEEK (Washington 1931). This is the most marvelous pink beardless iris that has as yet been produced. The color is hard to describe being a clear salmony pink; the flowers are 4 in. across, carried on erect 3 ft. stems. Graceful drooping foliage. This was given Honorable Mention by A.I.S. in 1930; Net.	\$15.00
SAGAMORE (Berry 1928). A fine tall fulva hybrid on the general order of Cacique, but more red and having an intense brilliant signal on the falls. Well liked by all those that have seen it; very scarce; Net	\$12.00
SAVANNARUM . A beautiful tall blue Apogon from the southern states.	\$1.50
SAVANNARUM ALBA . A southern iris of white coloring and extremely rare. Net.	\$6.00
SAVANNARUM ROYAL . A wonderful deep intense blue. Very rare. Net.	\$6.00
SEWANNE (Washington 1932). A pale grey blue tinged with delicate lavender; Green and yellow lines under lip. Large flat flower of fairy like beauty. 3 ft. Net.	\$10.00
SHREVEI. Handsome sweet scented variety from Arkansas.	\$1.00
SHREVEI. Alba. White form which is very rare.	\$1.50
TASKONA (Washington 1932). This iris is a fulva, vini-color hybrid. The flowers are a light yellow bronze with a copper toned edge; lighter and more yellow than fulva; flowers are large; beautifully carried on well branched stems. 3 ft. Net.	\$10.00
THOMASII . A new iris from the gulf states; these species seem perfectly hardy here in my garden. Rare.	\$4.00
TRIPETALA . A southern iris of blue-purple. Rarc. Net.	\$4.00
Versicolor . Our native blue iris.	\$5.00
VERSCOLOR VIRGINICA. A southern form.	\$1.50
VERISCOLOR-KERMESIANA . A rare form with claret-red flowers.	\$3.00
VINICOLOR . Beautiful wine-colored species from the southern states. Hardy. Tall and lovely.	\$2.50
WENA GOODALL (Washington 1932). The ground of this flower is white over which is veined rose. The heavy veining gives the effect of a deep rose colored flower. Very lovely; 40 in. Net.	\$10.00
YAZOO (Washington 1932). An unusual flower of grayish mauve; brownish line under lip; difficult to describe; excellent. 2 ft. Net.	\$10.00

Miscellaneous Species of Irises

Arenaria or Flavissima . Vivid yellow; small; rare.	\$2.50
Ensata . Asiatic species; lavender flowers.	\$1.00
Forrestii . Graceful flowers of clear yellow; fine for rock garden.	\$1.50

Pseudacorus. Brilliant yellow; English water iris.	\$.25
Pseudacorus-gigantea. A giant form of the above with deep yellow flowers; splendid for water garden.	\$1.00
Pseudacorus, alba. A white form which is very rare.	\$2.00
Pseudacorus, variegata. Yellow flowers and variegated foliage.	\$2.00
Tricuspis. Leaves grow in fan shaped sheath; delicate lavender and gold flowers on tall stems; exceedingly rare.	\$2.00
Wilsoni. An iris from China; pale yellow faintly veined with purple; rare.	\$3.00

Siberian and Orientalis Group

Species and Hybrids

AHALYA (Nesmith 1932). A beautiful pink Siberian; flowers well carried on tall stems; flowers are large and are of a distinctly pink tone.	\$7.00
ANN STAHLMAN (Washington 1931). A very pale blue self; lighter than Perry's Blue; heart shaped falls, not drooping. A very light and elf like flower with small and dainty foliage; Net.	\$5.00
BLUE CHARM (Sass. 1931). Beautiful large intense blue.	\$5.00
BLUE FLAME (Clev. 1927). Large wide petaled flower of brilliant light blue coloring; perfect form; heavy texture; sky blue.	\$4.00
BLUE HERON (Cleveland 1927). A large flower of perfect form with almost pure white style branches, making a sharp contrast against the flaring violet falls. 36 in.	\$1.50
BLUE OWL (Cleveland 1927). Rich blue coloring of this flower is enhanced by the lovely delicate style branches and white triangular markings in throat of flower. 36 in.	\$3.25
BLUE RIDGE (Clev. 1929). Large flaring flower of light clear blue of exquisite shade; center turquoise blue; fringed stigmas.	\$3.00
Blue Star. (Clev. 1927). Large flower of deep blue; Standards large and drooping, giving the appearance of a six pointed star; unusual.	\$1.00
BLUE WINGS (Clev. 1929). Tall, with flowers of exquisite clear blue, somewhat darker than Blue Ridge; petals wide and spreading; flower very large with trim jaunty air that is intriguing,	\$3.00
Bob White. (Clev. 1925). Large pure white flower with no veining; very tall.	\$1.00
Butterfly (Clev. 1920). A lovely variety of soft uniform sky blue in standards and styles; Falls have a white ground, flushed soft blue.	\$.50
BULLEYANA. This is a splendid wild variety with blue-purple flowers of large size borne well above the foliage; rare.	\$1.50
CAESAR (Morgan 1924). This is by far the richest colored Siberian iris that I have seen; a deep dark purple blue; very scarce.	\$5.00
CHRYSOGRAPHES. A species of rare beauty; deep velvety violet purple with brilliant gold markings.	\$2.00
DELAVAYI. An exceedingly handsome species of rich red-violet coloring; late flowering; rare.	\$3.00
Dragonfly (Dykes 1923). A very lovely blue with white back-ground.	\$.75
Edlmann Seedling. A lovely white which has a pink glow.	\$1.50
Emperor. Large flowers of good form and carriage on tall stems.	\$.35

FLORRIE RIDDLER (Perry 1920). Flowers are of an exquisite blue, large and borne on tall stems.	\$.75
KINGFISHER BLUE (Wallace 1924). This is a seedling of Perry's Blue and a great improvement in every way; color being brighter.	\$1.00
L L E W E L L Y N (Clev. 1929). Very tall with large flowers of most unusual shade of soft blue; entirely distinct and outstanding in every way.	\$5.00
MILDRED STAHLMAN (Washington 1931). This lovely new iris is of pale china blue color with flowers of large size; falls do not droop but lay flat when flower is open. A very dainty flower with refined foliage; Net.	\$5.00
MRS. ROWE (Perry 1923). Flowers are white flushed with lavender pink, giving the effect of a pale pink iris; a profuse bloomer and extremely good.	\$.75
Orientalis, Blue. An old form which is excellent for landscape work.	\$.35
OLD TOWN SEEDLING. A tall iris of soft blue; unusually well branched; flaring falls; standards having a softly marbled effect that is very decorative; stock very scarce.	\$3.00
Papillon (Vilm. 1924). A beautiful light blue of uniform color; flowers larger than Perry's Blue; very floriferous.	\$.50
PEGGY PERRY (Perry 1912). Large ruffled flowers of uniform rich violet-blue; early; prominent white spot at throat; lovely.	\$.50
Perry's Blue. (Perry 1912). One of the best of the older Siberians; bright sky blue, but of different tone than any other blue.	\$.50
PERIWINKLE (Clev. 1927). An exceedingly brilliant blue seedling of Perry's Blue; a much larger flower of deeper more intense blue than the parent; tall and very scarce.	\$5.00
PIGMY. A free flowering dark purple variety.	\$.35
Prismatica. The American species of the Siberian family; is a delicate dainty growing plant and should be in every collection.	\$.50
RED EMPEROR (Sturt. 1924). This iris is entirely different from others of this class, being wine red, veined and shaded with blue.	\$1.25
RED RAIDER (Clev. 1927). Brilliant red-purple seedling of Red Emperor; extremely velvety.	\$2.00
ROYAL FLUSH (Clev. 1929). A distinct and rarely beautiful iris; color is a deep purple overlaid with red giving a deep velvety effect that is unusual; large flowers, on tall stems.	\$9.00
Snow Queen. Extremely large white flowers on 30 in. stems; rich golden color at throat; an older variety but lovely.	\$.50
STELLA MAIN (1927) A white form of vericolor that is extremely rare; white standards, lightly veined pale blue; style branches are of pale blue lavender; midrib of deep mauve; falls white; beautiful and unusual.	\$3.00
STURTEVANT HYBRID. This is a beautiful Siberian of unusual coloring; intense blue with red style branches; whole flower seems lighted with bright glow; more distinctive than many named varieties.	\$2.00
Sunnybrook (Clev. 1920). An exquisite shade of Alice blue; styles with brighter midrib; well liked by all.	\$.50
True Blue (Fry. 1919). Considered by some to be better than Perry's Blue; a lovely iris of two shades.	\$.50
TURQUOISE CUP (Clev. 1927). A beautiful turquoise blue flower of large size and wonderful form; style branches are a shade lighter than the rest of the flower. Too much cannot be said in its praise.	\$4.00

WHITE DOVE (Clev. 1927). A seedling of Emperor which has the same form and texture as its parent but is of a wonderful clear white; rare and beautiful.

\$4.00

Monspur and Spuria Group

A. J. Balfour. This is a tall intense blue Monspur of fine form; rare 48 in.

\$1.25

Alba. A lovely white form; 40 in.

\$1.25

ALICE EASTWOOD (Brantin 1929). This is a magnificent ochroleuca hybrid which surpasses its parent in every way; very tall, flowers well above foliage and a beautiful rich yellow. I am fortunate in being able to procure this iris; rare and stock limited; 46 to 48 in; Net.

\$10.00

Aurea. This is a rich golden yellow spuria; not to be confused with the bearded iris, Aurea. Ochroleuca and Aurea are the two best of these species; 38 in.

\$1.00

CAMBRIDGE BLUE. One of the finest of the Monspur group; color is a deep sky blue, well described by the name; is of English origin; rare; 40 in.

\$5.00

Dorothy Foster. An English Monspur; violet standards; falls lighter in color and beautifully striped.

\$2.00

EUPHROSINE (Washington 1931). A very bright clear blue hybrid of splendid shape and forms; much better in every way than Notha or Mrs. Tait; has a decidedly yellow under lip; Several flowers open at one time, well placed, giving the effect of a ten in. spray of flowers; 40 in; Net.

\$7.50

FAIRY WAND (Washington 1931). A marvelous hybrid; The color is in effect, old gold tinted with pale light blue; flowers 5 in. in diameter borne on tall erect stems; flowers well above foliage. This is a beautiful flower; large, graceful and well poised; exquisite color; Net.

\$10.00

Graminea. An interesting little species from Central Europe; has the odor of ripe apricots; lovely grasslike foliage; charming for flower arrangement.

\$.75

Halophila. A species from Central Asia; these irises are charming for arrangement; grows in salt marshes.

\$1.50

HAZY HILLS (Washington 1931). This is another splendid spuria hybrid produced by Mr. Washington. The color is a very delicate light blue, tinted with old gold; falls are slightly darker than the standards; flowers of larger diameter and more spreading than those of Ochroleuca. Tall, with blooms well above foliage; 48 in. Net.

\$10.00

INDIAN SUMMER (Washington 1932). The background of this flower is white, veined with light violet, giving the effect of a self; Extremely delicate and lovely in color. Yellow spot under the lip seems to illumine the whole flower. The stem is four feet and well above the erect foliage; Beautiful. Net.

\$10.00

Juno. Similar in color to Dorothy Foster, but of different form; blue-purple.

\$1.00

Lord Wolseley. A very sturdy and prolific Monspur; blue-purple in color.

\$.75

Mon aurea. A cross between Aurea and Monnierii producing very large flowers of deep clear yellow on exceedingly long stems; 60 in.

\$2.00

Monnierii. Thought to be a sport from Ochroleuca; golden yellow flowers of excellent form; 48 in.

\$1.50

Monspur. This is one of the hybrids of Monnieri and spuria type; color, blue-purple; 48 in.	\$.50
Mrs. Tait. A soft porcelain-blue hybrid; especially good for mass planting.	\$.50
Mrs. Woodhouse. A beautiful hybrid of soft blue and gold coloring.	\$1.50
NATCHEZ (Washington 1932). This wonderful new iris is pale primrose yellow shading deeper toward the throat. A bright yellow blotch almost covers the fall; Deeper in tone under the lip. The style branches are ivory. The flower is large and the falls do not tuck under as do those of ochroleuca. Blooms are beautifully carried well above the foliage. The outstanding hybrid of this class. Net.	\$25.00
Notha. A clear lavender-blue iris; has excellent carrying qualities in landscape effect.	\$.50
Ochroleuca. This is the most glorious of the wild kinds. Large ivory white flowers with intense orange blotch on the throat.	\$.50
Ochroleuca-gigantea. An extremely large and tall form of ochroleuca; white with orange markings at throat; splendid specimen for garden.	\$1.00
PREMIER. This spuria is of outstanding color. S. of reddish purple; F. intense blue; flowers have splendid carrying qualities; a very lovely garden subject.	\$4.50
QUEEN VICTORIA. An ochroleuca hybrid of soft cream coloring with very large golden blotch; has almost the effect of old ivory.	\$5.00
SHELFORD GIANT. This is one of the finest of this group, having immense cream yellow flowers with large characteristic blotch of yellow at the throat.	\$3.50

Japanese Irises

AAHMES (Child of the moon) (Nesmith 1932). This beautiful iris has a white background, frosted and edged with a delightful shade of pink. The whole flower is particularly lovely; petals 3; 40 in.	\$5.00
ABNAKI (Whitening Sky at Daybreak) (Nesmith 1932). Large six petaled white, heavily brushed with pink-purple and veined with darker tone; a gorgeous iris; 41 in.	\$5.00
ALICE KIERNAN. Crepy white with a blue misting on the falls; rare.	\$2.50

<u>FLANDERS.</u> Maroon shaded crimson; well liked.	\$1.00
<u>GERALD PERRY.</u> Large flowers of apricot pink; crimson blotch.	\$.50
<u>GOLDSCHMIDT.</u> Dwarf; orange scarlet.	\$.75
<u>GOLIATH.</u> Enormous rich soldiers-scarlet flowers on stout rigid stems.	\$1.00
<u>GIANT.</u> Orange-scarlet of unusual size and form.	\$1.25
<u>GRAND DUKE.</u> Similar to Grossfurst but better.	\$2.50
<u>GRAND MOGUL.</u> Exceedingly large flowers on strong stem; tall and of deep red color.	\$.75
<u>GROSSFURST.</u> Deep crimson in color with coal-black spot at base of petal. One of the best of this color.	\$.75
<u>HENRI CAYEUX.</u> Old rose, shading into wine color; unusual and beautiful. Does better in half shade.	\$1.00
<u>HERCULES.</u> Immense glowing red flowers; four petaled.	\$1.00
<u>JEANNIE MAWSON.</u> Peach pink; large flowers of splendid coloring.	\$.50
<u>JOYCE.</u> One of the finest; cerise and old rose.	\$.50
<u>JUNE DELIGHT</u> (Neeley 1931). A large bright silvery pink flower which improves with age; so splendid in every way that we predict even greater popularity for it than the famous Lulu Neeley. We strongly recommend the new and rare variety; stock exceedingly limited. Net.	\$30.00
<u>KING GEORGE.</u> Large fringed flowers resembling a Parrot tulip. A. M., R. H. S., Chelsea Show.	\$1.00
<u>LADY MOORE.</u> A beautiful soft rose poppy; new.	\$1.50
<u>LEON LAURENT.</u> A new poppy of excellent clear wine-red	\$1.50
<u>LIGHTNESS.</u> Strong grower; pleasing soft rose; ruffled petals.	\$1.00
<u>LITTLE JEWEL.</u> Salmon color touched with blush.	\$1.00
<u>LITTLE PRINCE.</u> An attractive half dwarf scarlet.	\$1.25
<u>LORD LAMBOURNE.</u> A deeply fringed Parrot tulip typed poppy of excellent red. A. M., R. H. S.	\$1.00

<u>LULU NEELEY.</u> Considered by all the best red that Dr. Neeley has introduced; beautiful deep dark red. An outstanding poppy.	\$2.00
MAHONY. Large flowers; mahogany purple; unusual and very good.	\$.50
<u>MAHONY AMELIORE.</u> This is a new poppy of richer coloring than Mahony; very rare and lovely.	\$1.50
MASTERPIECE. Lilac color; marvelous large flowers of exceeding loveliness; best grown with slight protection from the sun.	\$1.00
<u>MAY QUEEN.</u> A double poppy; flame orange touched with scarlet.	\$1.00
MAY SADLER. Large and robust; salmon pink; black markings at base.	\$.50
MENELIK. Definite orange; black spots.	\$1.00
<u>MRS. BAKER.</u> A new poppy of beautiful dark red color without sheen; different from any that I have seen.	\$1.00
<u>MRS. FISHER.</u> Another new and rare poppy; extra large deep crimson flowers on 4 ft. stems.	\$1.50
<u>MRS. HEENK.</u> Rare poppy of an excellent rose color.	\$1.50
MRS. J. HAWKINS. One of the best pinks; good grower and free flowering.	\$2.00
MRS. PERRY. Lovely salmon pink.	\$.50
<u>MRS. STOBART.</u> New English introduction of gorgeous rose cerise coloring. really a wonderful soft old rose. The finest poppy I have ever seen.	\$2.50
<u>NANCY.</u> Mr. Perry considers this the finest poppy of this coloring; a rich glowing rose-red with beautifully fringed petals; tall stems; free bloomer.	\$2.00
NEGRILLON. Vivid carmen; new and excellent.	\$1.25
OLYMPIA. Large double golden salmon hybrid; very unusual.	\$.50
<u>ORANGE QUEEN.</u> New; One of the finest dark orange shades	\$.75
<u>ORRIFLAME.</u> An exceedingly attractive orange-scarlet flower.	\$.75
PERFECTION. Large flowers of lovely deep shade of pink; immense black spots at base of petals; splendid.	\$1.25
<u>PERRY'S BLUSH.</u> The loviest white with a faint blush tone; new and rare.	\$5.00
PERRY'S WHITE. Large satiny white flowers; maroon-black at base of petals; real stock is rare.	\$.60
PINK BEAUTY. Large clear pink with black base.	\$.50
PINK RADIANCE. One of my own hybrids; a gorgeous pink; tall and of unusual beauty and form.	\$1.50
PRINCESS ENA. Tulip shaped flowers; deeper salmon pink than Mrs. Perry.	\$.35
<u>PRINCE of ORANGE.</u> A fine distinct orange. New	\$1.00

PRINCE OF WALES. New; bright pink with touches of salmon; splendid size and form; distinct.	\$1.50
PRINCESS VICTORIA LOUISE. Soft salmon rose, shading to blush rose; a great favorite.	\$.50
PROSPERINE. Chinese red; decidedly black center; very fine.	\$1.50
PSYCHE. Light old rose coloring; excellent.	\$2.50
PURITY (Neeley 1931). A pure soft pink without spot or blemish of any kind; charming flowers on good stems; a poppy of unusual charm; stock limited. Net.	\$15.00
QUEEN ALEXANDRA. Light pink with gray blotches at base of petals; strong sturdy plants; exceptionally good.	\$.50
REGGIE PERRY. Neat tufted habit; slender stems with many tulip shaped flowers; salmon-rose, flushed crimson at base. New.	\$1.50
REMBRANDT. Beautiful orange flowers with scarlet.	\$1.00
ROSE QUEEN. Lovely soft old rose; medium height.	\$1.00
ROYAL SCARLET. Very bright orange scarlet; immense flowers.	\$.50
RUBY PERRY. Slender rigid stems, bearing numerous tulip shaped flowers, a delicate shade of apricot.	\$1.00
SALMON KING. Much better than Salmon Queen.	\$1.50
SALMON QUEEN. Salmon flower of good habit.	\$.75
SILVERBLICK. Wonderful salmon pink with blue at base of petals.	\$.50
SILVER KING. A wonderful new white poppy of excellent form and substance; tall profuse bloomer; the finest white; Splendid.	\$3.00
SPOTLESS. Beautiful pink; free flowering; lovely; new.	\$1.00
STURTEVANT PINK HYBRID. Beautiful; unusual shade of deep pink.	\$1.00
SUNNY JIM. New; has attractive semi-double flowers of clear scarlet-orange.	\$.75
SURPASSETOUT. An excellent red; well liked. New.	\$1.00
THORA PERRY. A beautiful variety of unusual form; pure white flowers profusely borne on slender stem. The flowers are invaluable for cutting. One of Mr. Perry's best introductions. A.M., R.H.S.	\$2.00
TOREADOR. Large dark red of fine form and size.	\$5.00
TRILBY. One of the last to bloom. A very deep dark red; the buds seem to be plaited and the flower when open has lovely plaited petals. This poppy cannot be too highly praised; true stock is very scarce.	\$3.00
TULIPA. Beautiful cupped-shaped orange-pink flowers.	\$.75
WATTEAU. Pure flesh coral in color; covered with flowers; no black markings. A lovely variety; very scarce.	\$3.00
WELCOME. Deep scarlet shaggy petals with dusty black center; an addition to any collection.	\$1.50

WUNDERKIND. Large flowers of brilliant carmine-rose; new and extremely well liked.	\$1.50
WURTEMBERGIA. Enormous cerise scarlet flowers, often 11 inches in diameter; one of the most outstanding reds; makes a brilliant picture.	\$1.50

Hemerocallis

H. APRICOT. (Yeld). Clear bright orange flower of excellent form and size; June; 2 ft. hybrid.	\$.50
H. AUREOLE. A splendid early variety with rich orange flowers; 3 ft.	\$.50
H. Aurantica. Bright orange flowers; sweet scented; June and July.	\$.50
H. AURANTICA MAJOR. Larger and taller than the former; deeper shade.	\$.75
H. <u>AMARYLLIS.</u> Shape of flower much like the Amaryllis; medium tone; rare.	\$1.00
H. <u>ANNA BETSCHER.</u> A midseason blooming variety of deep orange touched with red-bronze; a beautiful and little known variety; excellent; July. Mr. Betscher's origination.	\$3.00
<u>BARONI.</u> Soft yellow coloring of this flower is especially pleasing; segments pointed.	\$1.75
H. <u>BAY STATE.</u> one of the best Betscher hybrids; Tall; deep yellow blooms; the flowers have a delightful wavy edge that greatly adds to their beauty; a persistent bloomer; July and August.	\$2.00
H. <u>CALYPSO.</u> One of Burbank's best introductions. Clear lemon yellow flowers with large petals; much admired; July.	\$1.50
H. <u>CINNABAR</u> (Stout). One of the new hybrids produced by Dr. Stout. Brownish red in coloring; Cadmium yellow throat; outer half of petals sprinkled with brown; large flowers with recurving petals; blooms in July.	\$4.00
H. Citrina (Citron Day Lily). Pale sulphur yellow flowers borne on tall graceful stems; very fragrant; a splendid yellow to use in mass; also excellent for cutting.	\$.50
H. <u>CRESSIDA.</u> A beautiful and unusual flower; another introduction from Mr. Betscher; a lovely deep orange with reddish band across center; rare; July, August.	\$2.00
H. <u>D. D. WYMAN.</u> Another wonderful hybrid originated by Mr. Betscher. Light golden yellow with a tawny splash across each petal; the flower gradually fades to a pale soft yellow; excellent; July and August.	\$2.00
H. DR. REGAL. May and June; pure orange yellow; very fragrant; nice for front of border and especially good for cutting.	\$.50
H. Dumortierii. Flowers in June; rich cadmium yellow; back of petals bronze yellow.	\$.50

H. Dumortierii (Dwarf). Similar in coloring but exceedingly short.	\$1.50
H. ESTMERE. Full flowers; petals well spread; very good.	\$2.00
H. FLAMID. Orange yellow, brown reverse; many flowers; July.	\$2.00
H. Flava (Lemon Day Lily). May and June; clear lemon yellow; very fragrant; excellent for massing.	\$.25
H. FLORHAM. A large trumpet shaped flower of rich golden yellow; tall and fragrant; June, July.	\$1.00
H. Fulva (Tawny Day Lily). June; dusty orange flowers; fine for massing.	\$.25
H. FULVA MACULATA. Deeper of coloring and larger than Fulva.	\$.75
H. GEORGE YELD. "I consider this the most beautiful and distinct variety yet introduced; large open flowers nearly 6 in. across, outer petals rich orange, inner petals flushed and mottled orange-scarlet". (Mr. Perry of England). Stock limited.	\$3.00
H. Gold Dust. Very large golden yellow flowers; June; 2 ft.	\$.50
H. GOLCONDA (Farr). Chrome-yellow; flowers exceedingly large on 50 in. stems; very desirable.	\$.65
H. GOLDEN BELL (Ruys) Vigorous. Flower stems 2 ft. 6 in. tall; very widely branched; many flowers of large size; soft apricot-orange with darker throat; petals broad recurved at tips; inner petals slightly wavy; sweet scented. July, August.	\$2.50
H. GOLDEN DREAM. The latest to bloom; deep golden yellow; darkest of all; produced by Mr. Betscher; strongly recommended.	\$3.00
H. GOLDENI. Mr. Betchers produced this sturdy variety with deep orange flowers; blooms in July.	\$2.00
H. GRACILIS. Dainty grass like foliage; clear lemon yellow flowers.	\$1.00
H. GYPSY. A very tall and strong growing variety with a long season of bloom; orange-yellow; flowers are well placed on tall stems; July, August; Betscher hybrid.	\$2.00
H. HARVEST MOON. Another masterpiece by Mr. Betscher; Flowers are of a delightful clear orange-sherbert color; petals are long, slender and graceful. This is a splendid variety.	\$2.00
H. HYPERION. A magnificent hybrid produced by Mr. Franklin B. Mead of Fort Wayne, Indiana. "It surpasses all other Hemerocallis in size, form, color and substance; is equalled or surpassed in texture only by the rare and beautiful Japanese hybrid H. Royal. The flowers of Hyperion, on stout stems 42 in. tall are six in. across and are of the purest canary yellow". A.M., R.H.S. 1931. Spring Deliv.	\$4.00
Fall " "	\$3.00
H. J. A. CRAWFORD. Best apricot-yellow from Mr. Betscher. Very open; flowers of great beauty; floriferous; medium height.	\$2.00
H. J. R. MANN. A well liked variety of pleasing yellow.	\$1.50

H. Kwanso Flore pleno. Double orange flower; tall; blooms in July.	\$.25
H. KWANSO FLORE PLENO FOL. VAR. This is a rare form in America; flower is a shaded orange with lighter markings; foliage is green and cream striped. A famous hybridizer told me he knew of no other stock of this kind in America.	\$2.00
H. <u>LEMONA</u>. A Betscher hybrid of beautiful pale lemon-yellow; late blooming; tall and generally admired.	\$2.00
LEMON QUEEN. Graceful and lovely yellow.	\$.75
LEMON KING. Excellent yellow toned variety.	\$1.50
H. <u>LUTEOLA, MAJOR</u>. Tall and very free flowering; the blossoms are a splendid orange-yellow. July, August.	\$1.00
H. <u>LOVETTS LEMON</u>. Largest lemon colored variety; gorgeous beyond words; 4 ft. " " (Introducer's description).	\$1.00
H. <u>LOVETTS ORANGE</u>. A tall growing hybrid of bright orange; large full flowers.	\$1.00
H. MAGGIE PERRY (Perry). A foreign hybrid of tawny yellow coloring that is much admired.	\$2.50
H. MANDARIN (Farr). Lemon yellow; bell shaped; recurved petals; very tall; unusual and well liked.	\$1.50
H. Middendorfi. Handsome golden orange flowers; June, July.	\$.75
H. <u>MIKADO</u>. A hybrid originated by Dr. Stout. Large flowers rising fully 10 in. above the curving foliage; body of the flower is a rich orange; in the center of each petal is a large blotch of dark almost purple-red; the whole effect is pleasing and very different.	\$4.00
H. <u>MODESTY</u>. Medium to large, pale yellow flowers on slender, graceful stems; free flowering. Another of Mr. Betscher's hybrids; late July.	\$2.00
H. <u>MRS. A. H. AUSTIN</u>. A handsome hybrid produced by Mr Betscher. Large flowers of deep golden yellow; blooms over a long period of time; July.	\$2.00
H. MRS. J. R. MANN. A hybrid of splendid yellow tone.	\$1.50
H. <u>MRS. W. H. WYMAN</u>. A marvelous Betscher hybrid of very pale glistening yellow; is the latest to bloom; very delicate in color and form.	\$2.00
H. OCHROLEUCA. An older variety but very lovely.	\$2.00
H. OPHIR (Farr). Dark golden yellow flowers on 42 in. stems; flowers are extremely large and well placed.	\$1.50
H. <u>ORANGEMAN</u>. An early flowering variety with beautiful large orange-yellow blossoms; May, June.	\$.75
H. <u>QUEEN OF MAY</u>. Large clear apricot-yellow flowers; free bloomer; nice for cutting; rare.	\$1.00

- H. RADIANT** (Yeld). A splendid clear pure orange; without Fulva blood—and ranks next to Hyperion in quality and texture of flower. One of the finest introductions of Mr. Yeld; rare and excellent. **\$6.00**
- H. ROYAL** (Japanese hybrid). A splendid variety of excellent texture and form; Similar in many ways to the wonderful new hybrid-Hyperion. **\$3.00**
- H. SIR MICHAEL FOSTER**. Broad graceful arching foliage; stout stems bearing numerous large flowers of beautiful yellow, one of the finest yellows. July. **\$5.00**
- H. SHIRLEY**. Flower stems 3 ft. tall; very widely branched; many very large; flat funnel shaped flowers; tips of petals reflexed and margins of inner petals wavy; pale apricot-orange. **\$3.00**
- H. SOVEREIGN**. A free flowering English variety; good sized orange-yellow flowers; brown reverse; June, July. **\$1.00**
- H. SPRENGERI**. Splendid even coloring of medium yellow. **\$4.00**
- H. TANGERINE**. Well described by the name; excellent for front of border; rare. **\$4.00**
- H. THE GEM**. A beautiful early flowering Betscher hybrid; deep yellow blooms of splendid substance; wavy edge to petals. **\$2.00**
- H. Thunbergii** (Japanese Day Lily). A specie that is useful in the garden; rich clear buttercup yellow. **\$.50**
- H. VESTA**. One of the shorter hybrids by Dr. Stout, but very different and beautiful; deep uniform orange-yellow, lightly touched with orange-red; glistening gold sheen; broad overlapping petals; flowers about 8 in. above the foliage. **\$4.00**
- H. WAU-BUN**. Dr. Stout has produced many hybrids, but this is entirely in a class of its own; uniform Cadmium-yellow, outer half overcast delicate fulvous red; petals are large and broad; freely curving contour of petals is unique. **\$4.00**
- H. WINSOME** (Yeld). Mr. Yeld has never introduced a better Hemerocallis than this. The name really describes the flower which is a beautiful yellow of particularly appealing tone. Midseason to early in time of bloom; truly lovely. A. M., R. H. S. 1931. **\$6.00**
